Overview Context

The purpose of this meeting is to gather a circle of interested First Nations Rights and Title Holders to discuss their priorities for co-developing a new approach to accessing CYSN services that will better meet the needs of Indigenous children, youth, families and communities. These discussions will inform the path forward that we build together.

B.C. recognizes the importance of CYSN services that work for every child and is committed to immediately beginning meaningful engagement with First Nations Rights and Title Holders. This engagement is part of a larger distinctions-based engagement process that includes First Nations, Métis, and Inuit Peoples. Engagement will be conducted in a manner that acknowledges the specific rights, interests, priorities and concerns of each, while respecting and acknowledging these distinct Peoples with unique cultures, histories, rights, and laws. The Ministry will take a government-to-government approach to co-development with First Nations Rights and Title Holders in this engagement and is committed to fulfilling commitments under the Declaration Act.

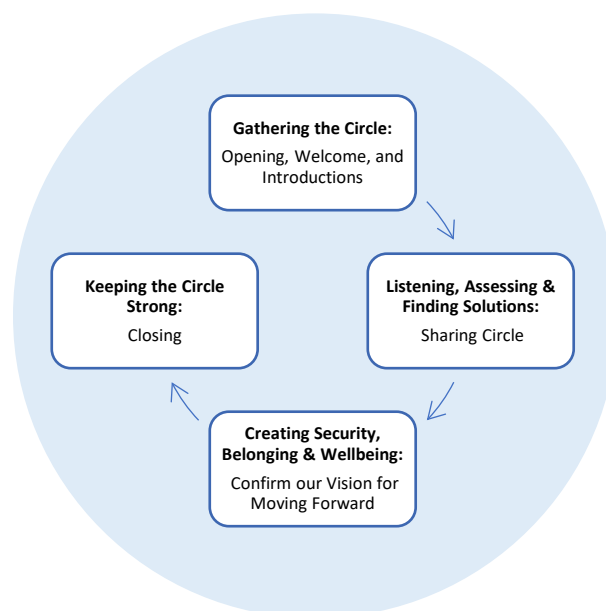

We acknowledge that First Nations have already offered significant wisdom and contributions to inform the transformation of CYSN services and we intend to build on this prior feedback in collaboration with you. We also acknowledge that previous engagement approaches in 2019 did not meet the requirements of the Declaration Act and many First Nations' expectations for co-development and we commit to a renewed approach that honours your priorities. A summary of this prior feedback can be found [here](#).

## Meeting Format – May 10, 2023
