Subject: re: comments for workers compensation review

Hi Janet,

Randhawa Farms, one of our members sent me their comments, so I am forwarding to you. Please see below. Thank you!

Yes I have 1 feedback:

Communication it's a big obstacle for most of the foreign workers that comes to Canada through the Temporary Foreign Program. When the worker calls to workers compensation office to confirm the injury report, communication It's often difficult because there are no available translators. We will highly recommend to have translation available or better translation system when dealing with foreign workers.

Other that the communication barrier the program works very well, all claims and reports were process,

I went to the link and I filled the questionnaire as well,

Thanks,

Ecio
