Ms. Patterson;

The BC Greenhouse Growers' Association represents 65 members (business owners) growing on 800 acres located mostly in the Lower Mainland and Fraser Valley but also in the Interior and on Vancouver Island. We contribute over \$350 million annually in farm cash receipts to the BC economy and export over \$200 million of greenhouse vegetable products. We employ about 3,500 people directly on the farm and we estimate that an additional 10 jobs are created for every 1 on the farm. So, directly and indirectly we create jobs for over 38,000 people in the province.

The BC Greenhouse Growers' Association works through the BC Agriculture Council on the Employers Forum and wholeheartedly supports the Employer Community submission to the Worker's Compensation System Review. It is attached to an email, along with this letter.

We welcome the opportunity to provide the Reviewer with comments regarding her review of the Workers' Compensation System.

Best Regards

A handwritten signature in cursive script that reads "Linda Delli Santi".
