Ms. Janet Patterson
Reviewer
Workers' Compensation System Review

As a member of the B.C. Employers' Forum on WorkSafe, The BC Agriculture Council (BCAC) and our member associations strongly support the recommendations and comments in the attached submission.

BCAC is a "Council of Associations" proudly representing nearly 30 commodity associations who in turn generate 96% of farm gate sales in B.C. We are the only provincial-wide organization representing the farmers and ranchers of B.C. to government. Our organizational structure allows us to tackle issues efficiently in collaboration with staff and farmers from our diverse member associations, achieving farmer-to-farmer communication. The Province of BC estimates that there are over 200 land-based farm products and 100 ocean-based farm products produced in B.C.
