***RE: Water Act Modernization Submission***

---

The City of Penticton has reviewed the Water Act Modernization discussion paper and respectfully submits the following comments in regards to proposed options for updating the Act.

In general the City supports the modernization of this Act and appreciates the opportunity to submit our thoughts and concerns regarding the issue. We look forward to more discussion once the public and provincial water purveyor's comments are summarized. It is our expectation that the Ministry will provide more detail and an opportunity to comment on any changes to the Act before the process is finalized.

Yours truly,

Dan Ashton  
Mayor
