Subject: Water Act Modernication

We demand: FITFIR remains unchanged since it is a self-regulating system for over-allocation problems. 'PERMITS' ARE NOT ACCEPTABLE!!

We demand: WATERSHEDS BE LEGISLATED AS RESERVES AND SOURCE WATER PROTECTION! SURFACE AND GROUND WATER PROTECTION FROM MINING, GAS AND OIL AND ALL INDUSTRIAL ACTIVITIES!!

We demand: A BROADER PUBLIC INPUT OF THIS PROCESS INSTEAD OF THIS UNANNOUNCED, 10DAY REVIEW PROCESS!!!

We demand: WAM not devolve water protection to various other Ministries Acts (Forestry, Mining, Gas & Oil)!!!
