Subject: Comments from Cariboo Cattlemen'ssociation

On behalf of Cariboo Cattlemen's Association we submit to you that we fully support the comments submitted by the BC Cattlemen's Association.

We emphasize two matters: one:the government needs to retain ownership interests and provide support for public beneficiaries of water storage and distribution facilities eg fisheries and other biodiversity benefits of irrigation and flood control stuctures; two,that the adminstration of licencing and reporting be adequately financed by government.

Thanks for the opportunity to comment on the Water Sustainability Act,

David Zirnhelt
