

## Detailed Fees and Rentals Schedule to be Implemented in 2016

### Notes:

1. *Water Regulation* - [Schedule B](#) is maintained for the calculation of commercial and general power purpose rental rates.
2. Unless specified, all rates apply to both surface water and groundwater. Domestic groundwater users do not pay fees as they are excluded from licensing requirements.
3. Changes to the water use purposes and corresponding categories of water use are identified in Table 1 and are carried through to subsequent tables as applicable.

### Power commercial and power general

- Annual rentals will not change in 2016
- Application fees will change to a sliding scale approach
- Application fees will be based on the proposed nameplate capacity or the proposed increase in nameplate capacity of the power plant and will be:
  - ≤1 megawatt (MW) – \$1/kilowatt (kW)
  - >1MW – \$250/MW
- Minimum application fee of \$250
- Maximum application fee of \$10,000

For example:

Capacity (kW)	Current	Sliding Scale
5	\$5,000	\$250
200	\$5,000	\$250
750	\$5,000	\$750
7,000	\$5,000	\$2,500
15,000	\$5,000	\$4,500
22,000	\$10,000	\$6,300
151,000	\$10,000	\$10,000
1,098,000	\$10,000	\$10,000
